## We love wood

Wood is a living, lasting and everchanging material. And it is the core of everything we do.

We believe balance is key. And we believe in protecting and respecting Nature and the forests that give life to our furniture.

That is the reason why we produce our furniture locally – in our three Danish factories. Why we only use wood from sustainable forests and utilise all excess wood. Why we invest in energy-efficient machinery and technology. And why we strive to always create high-quality pieces that last a lifetime and can be redeployed and recycled, again and again.

Because we care.
